

GENERATOR NEEDS FOR THE MINING AND POWERSTATION INDUSTRIES

ATE, a division of the Total Generator group of companies, specialise in providing electrical power to mining and other applications where there is no utility supply.

Backed by 8 years of experience in providing power to the mining industry, our engineers tailor the best solution for any application requiring constant and reliable power.

ATE offers packaged power stations on both a build, own and operate (B. O. O.) and a build, own, operate and transfer (B. O. O. T.) basis.

The synergy between our group of companies enables us to meet any power generation demands our broad range of customers may have. From small portable generators to complex systems we design, manufacture, supply, rent, own, service and support. We truly are your one stop powergen shop.

POWER YOU CAN RELY ON!

QUALITY PETROL & DIESEL GENERATORS

Genelite specialises in the design and manufacture of quality portable and permanent installation petrol and diesel generator sets. We have the enviable reputation of being a market leader in the industry supplying standby and continuously running generators for:

CAMPING

MOTOR HOMES

BUILDERS AND CONSTRUCTION SITES

COMMERCIAL, RURAL AND RESIDENTIAL PREMISES

PUMPING AND IRRIGATION

THE MINING INDUSTRY

MARINE

GENERAL PURPOSE APPLICATIONS

Genelite provides an extensive range of quality diesel, petrol and gas powered generator sets – and because we are a manufacturer we can easily modify standard specifications and “purpose-build” machines to your requirements.

Our comprehensive portfolio of generators ranges from 1 kva – 3000kva.

In other words, we can cater for just about any need.

**WE ALSO SELL USED GENERATORS, OFFERING A COST-EFFECTIVE ALTERNATIVE TO OUR NEW MACHINES.
(IN ALL CASES OUR USED EQUIPMENT IS RIGOROUSLY TESTED BY SPECIALISTS TO ENSURE THE ONGOING RELIABILITY OF EVERY SET.)**

OUR CULTURE IS TO PROVIDE SOLUTIONS

Our philosophy across all three companies, is to provide solutions to our customers' needs, as fast as we possibly can.

Whether you're a retailer stocking our brands or an end-user who needs servicing or advice, our motto is to

“DELIVER YOUR REQUIREMENTS FAST AND EFFICIENTLY.”

And we're proud to receive glowing testimonials like these!

OUR CUSTOMERS ARE OUR BUSINESS

“I operate a 500sq mile cattle property in Mt. Isa, Queensland and rely on Total Generators for my generator servicing needs.

Having purchased numerous Genelite generators over the past few years, I feel very comfortable in the knowledge that their associated company, Total Generators, are always available to provide regular servicing and spare parts for all of my generators.

In my cattle grazing business, I need to keep 10 kms of submersible pumps running, to provide water to my thousands of cattle and I must say that in any time of need, they have never let me down. They're fast and reliable for servicing and any spare parts.

I would gladly recommend them to anyone who has personal or business needs which depend upon generator-based power. I know they won't let you down.”

George Haiken

“Kallala” Property - Mt. Isa, Queensland, Australia

“I'm a major retailer of engines and generators, offering a wide range of power products to the rural, commercial and consumer sectors.

When I sell generators, I need to be confident that my customers will have service back-up. Indeed, such back-up is vital, otherwise my reputation is at risk. This is why I choose to stock Genelite generators.

Genelite's association with Total Generators means that my customers can enjoy prompt and professional attention to their servicing and spare parts needs. As far as I'm concerned, Total Generators offer “peace of mind.”

Neville Wessling

Motor Mecca - Toowoomba, Queensland, Australia

**TOTAL
GENERATORS**
RENTALS • SERVICE • PARTS

Total Generators provides rental and service facilities for those with generator needs. Closely aligned with Genelite, we provide the service back-up to all of Genelite's product range. And even if your machinery is not a Genelite brand, we can provide servicing and spare parts for all makes, models and sizes of generators.

Total Generators has a fleet of field service vehicles, equipped to provide regular maintenance or breakdown repairs on your generators. Our aim is to ensure that we provide an efficient and reliable maintenance service for any generator needs you may have. We are proud to continue to provide ongoing maintenance for many of Australia's largest Construction, Industrial, Mining and Government organizations.

We also provide short or long term rentals if you need a generator for a specific project.

Such maintenance services include:

BREAKDOWN REPAIRS,

REGULAR SERVICING,

LOAD TESTING,

RE-BUILDS,

MAJOR WORKSHOP REPAIRS.

We also offer a genuine 24/7 break-down service.

So if you have a need for “generator power” on a casual basis, call us to arrange a quick Rental Agreement, where we can provide you a generator on a short or long term basis.
